

Single Source Provider of Integrated District Energy Solutions

Hamilton Community Energy[®]
A Hamilton Utilities Company

Our Benefits

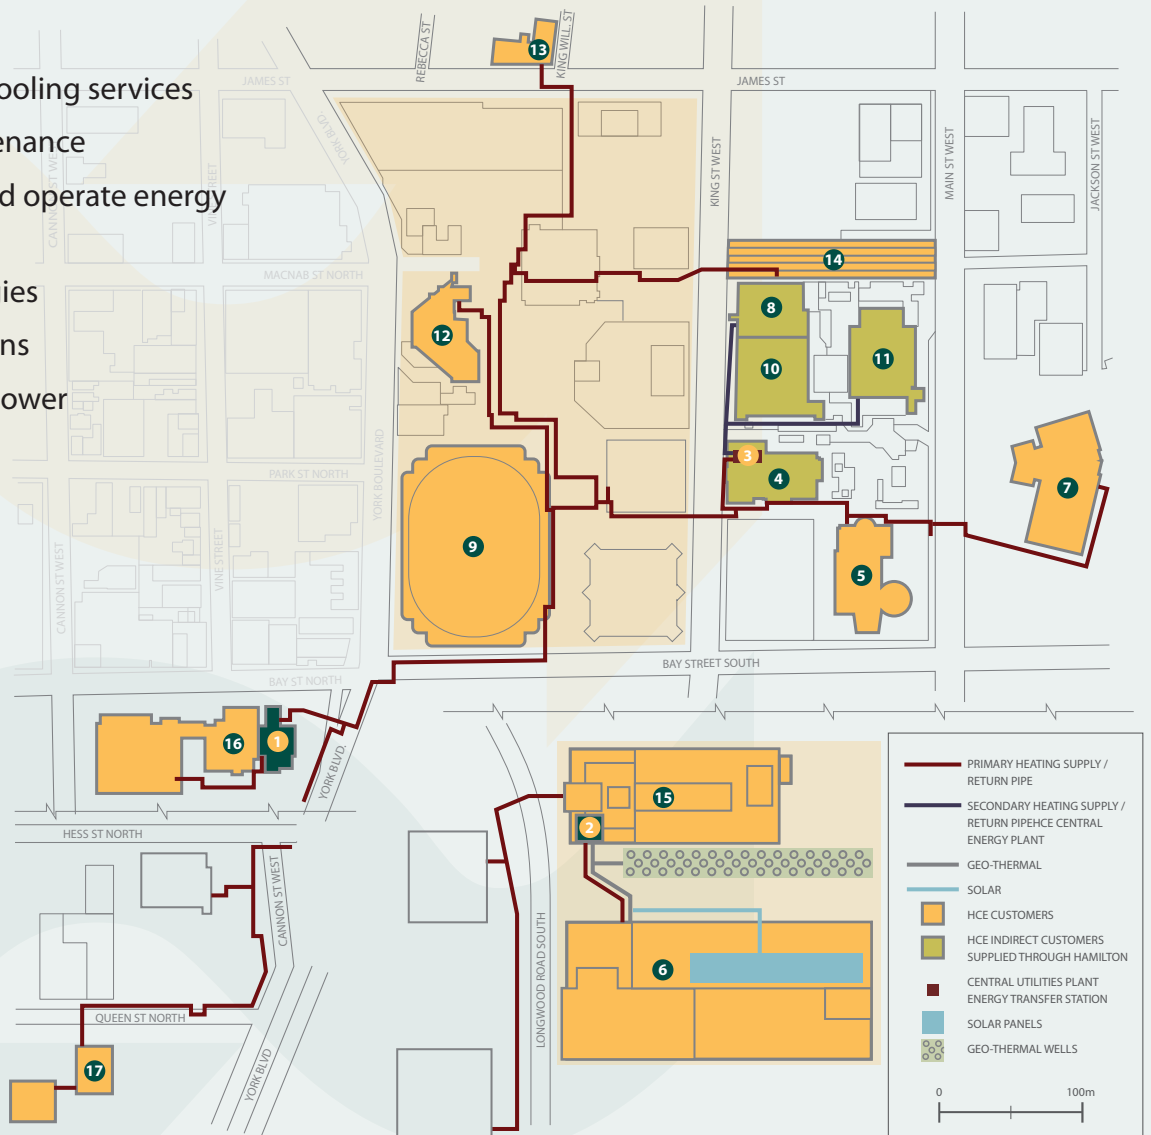

- Zero cold customers
- 99.9% reliability
- System redundancy provided by district energy equipment
- Avoided capital and operating costs
- Stable and lower energy cost
- Frees up rentable square footage
- Staff redeployed to focus on your core business competencies
- Reduction of greenhouse gas emissions
- No combustion, less noise and space requirements in mechanical rooms
- Improved efficiencies due to equipment base loading
- Heat energy provided by a certified EcoLogo® source
- Revenue-grade energy metering included to measure building performance
- Heating energy produced by two sources—excess combined heat and power or conventional boilers

Single Source Provider of Integrated Energy Services and Solutions

- District heating and cooling services
- Operation and maintenance
- Design, build, own and operate energy systems
- Renewable technologies
- Hybrid energy solutions
- Combined heat and power

- 1 HAMILTON COMMUNITY ENERGY
- 2 HCE SATELITE FACILITY
- 3 HAMILTON CUP ENERGY TRANSFER STATION
- 4 ART GALLERY OF HAMILTON
- 5 BOARD OF EDUCATION, CITY OF HAMILTON
- 6 CANMET
- 7 CITY HALL
- 8 CONVENTION CENTRE
- 9 COPPS COLISEUM
- 10 ELLEN FAIRCLOUGH BUILDING
- 11 HAMILTON PLACE THEATRE / AUDITORIUM
- 12 LIBRARY / FARMERS' MARKET
- 13 LISTER BLOCK
- 14 MACNAB BUS TERMINAL
- 15 McMASTER INNOVATION PARK ATRIUM
- 16 SIR JOHN A. MACDONALD SCHOOL
- 17 VICTORIA PARK COMMUNITY TOWERS

Our Technologies

- Combined heat and power (also referred to as cogeneration) utilizing a lean burning, natural gas-fired reciprocating 3.5 Mw generator with thermal heat recovery capabilities of 3.2 Mw
- 12.5 Mw of flex tube, high efficiency hot water boilers providing peak and standby heating demand
- Space-saving energy transfer stations at each customer site
- Closed thermal energy loop
- Geo-exchange technology
- High efficiency, modern chillers providing cooling
- Hybrid district energy systems integrating geo-exchange and solar-thermal technology and hot water boilers and chillers
- Revenue-grade energy metering at each customer connection

Environmental Leadership

Terrachoice EcoLogo® Certified

- HCE adheres to stringent environmental standards with minimal ecological impact
- HCE demonstrates environmental leadership
- HCE continually reduces its carbon footprint
- Customers become EcoLogo® certified by connecting to HCE's district energy systems
